

YASHIN CHAUHAN

Full-Stack Software Developer | React.js | Next.js | Node.js | NestJS | PHP/Laravel

Delhi, India | +91 7988775272 | yashin123786@gmail.com | github.com/yashin-chauhan | linkedin.com/in/yashin-chauhan

PROFESSIONAL SUMMARY

Full-Stack Software Developer with 5+ years of experience building scalable web applications, enterprise SaaS platforms, multi-branch logistics ERPs, and high-performance REST APIs using React.js, Next.js, Node.js, Express.js, NestJS, PHP/Laravel, PostgreSQL, MySQL, and MongoDB. Proven track record in designing multi-tenant architectures, immutable double-entry financial ledgers, print-exact document rendering engines (DomPDF), background worker queues (Redis/BullMQ), and taking real-world systems from architecture to production.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), TypeScript, React.js, Next.js (App Router), HTML5, CSS3, Tailwind CSS, Bootstrap, jQuery

Backend: Node.js, Express.js, NestJS, Fastify, PHP (7.4/8.x), Laravel (8/10), RESTful APIs, Microservices Architecture

Databases & ORM: PostgreSQL, MySQL, MongoDB, Prisma 7, Eloquent ORM, Database Indexing & Query Optimization

Queues, Cloud & Tools: Git, GitHub, Redis, BullMQ, AWS, Cloudflare, Nginx, PM2, DomPDF, Yajra DataTables, Laravel-Excel

WORK EXPERIENCE

Bakuun Pvt. Ltd. | Full Stack MERN Developer 2024 - 2026

- Architected and maintained RESTful APIs, admin portal features, and partner integration services across multiple Bakuun travel-tech portals.
- Engineered hotel/travel data synchronization, booking state machines, and end-to-end platform workflows using React.js, Node.js, Express.js, and MongoDB.
- Diagnosed and resolved critical production bottlenecks, optimized high-throughput database queries, and ensured 99.9% platform availability.

GlobalLogic Pvt. Ltd. | Full Stack MERN Developer Aug 2023 - Jan 2024

- Developed and enhanced RESTful APIs and backend microservices for scalable enterprise applications.
- Collaborated with cross-functional distributed teams to optimize API response times, improve code maintainability, and enhance user experience.

Digitally Bird Pvt. Ltd. | Full Stack Developer Apr 2022 - Aug 2023

- Engineered responsive frontend web applications using React.js, modern JavaScript (ES6+), and CSS frameworks.
- Optimized frontend bundle sizes, improved rendering performance, and ensured cross-browser/device accessibility.

Native Developers | Backend Engineer 2021 - 2022

- Assisted in backend development using Node.js and Express.js, created core API endpoints, and improved application test coverage.

FEATURED PROJECTS

RentKhata - Enterprise PG & Co-Living Operating Platform (Next.js 15, NestJS 11, React Native / Expo 52, PostgreSQL, Prisma 7, Redis / BullMQ)

- Architected an end-to-end multi-tenant property management platform modeling deep inventory hierarchies (Property -> Floor -> Room -> Bed).
- Engineered an append-only double-entry financial ledger calculating all balances in integer paise (Rs. 1.00 = 100 paise) to eliminate floating-point errors.
- Automated utility sub-meter electricity billing, tenant self-service portal with UPI workflows, and contract-first OpenAPI type-generation.

Compass Transport - Regional Freight Logistics ERP & Billing Engine (Laravel 8, MySQL 8, Blade, DomPDF, Laravel-Excel, jQuery)

- Engineered a multi-branch logistics ERP with session-isolated dispatch contexts (Delhi & Ambala hubs) preventing invoice serial number collisions.
- Built dynamic counter-bilty billing engine with instant AJAX client auto-completion, real-time client-side balance calculations, and smart GST allocation.

- Implemented print-exact vector PDF generation with DomPDF for Lorry Receipts (Bilties) and date-filtered Excel export for financial audits.

Gems Testing India (GTI) - *Gemological Lab Management & Public Verification* (Laravel 10, MySQL 8, DomPDF 2.0, Yajra DataTables, Laravel-Excel)

- Engineered universal report lookup engine using high-performance SQL UNION queries delivering sub-8ms search resolution across 4 product divisions.
- Built automated landscape PVC certificate PDF generator (400x590 pt) with Base64 embedded seals and integrated server-side Yajra DataTables.

Pragya Crop Advisory - *Bilingual AgriTech Intelligence Platform & REST API* (Laravel 10, MySQL 8, REST API Architecture, Devanagari UTF-8 Localization)

- Architected standalone Laravel 10 REST API backend for Pragya NGO delivering 12-stage scientific agronomic lifecycle guidance to rural farmers.
- Engineered composite relational queries linking plant disease symptoms directly to actionable chemical and biological remedies in unified single-request payloads.

EDUCATION

Bachelor of Arts (BA) | Maharshi Dayanand University (MDU Rohtak) 2019 - 2022
